END THE DAY WITH A QUIET TALK

Dusk Talk

A quiet evening chat that answers your feelings with the colors of the sky.

At night, many people want to look back on their day, but it is hard to know where to start. Dusk Talk helps you begin.

- Made for people who want to reflect on their day
- The chat starts with one gentle line
- You write freely, and the app asks you back

02

How Dusk Talk works

You chat about your day. The app senses your feeling, replies to match it, and changes the sky color.

- Write a message or tap a starter sentence
- It senses a feeling, like tired, happy or lonely
- Its reply and follow-up questions match that feeling
- The sky and a small icon change to show the mood

03

Why it matters, and what's next

Putting feelings into words can help your heart settle. Dusk Talk makes that habit gentle and easy.

- Talking through your day can feel calmer
- Switch between Japanese and English any time
- Start a new night whenever you like
- Next: more feelings and richer questions
